*These figures constitute the aggregation of information provided by Verde Energy USA Illinois, Inc.'s wholesale energy suppliers, most of which have indicated that their source is the "PJM system mix." The PJM system mix is the collective generation produced within the PJM Interconnection, which is the regional transmission organization that maintains the safety, reliability, and security of the transmission system and operates an efficient and effective wholesale electric market in 13 states and the District of Columbia.

**One hundred percent of the total electricity supplied was purchased from other supplier and the amount of nuclear waste attributable to producing this electricity is not known and is not included in this table.

Additional information on companies selling electrical power in Illinois may be found at the Illinois Commerce Commission's website: www.icc.illinois.gov
